- Essential Statistics, **Second Edition**, by Gould, Ryan, Wong

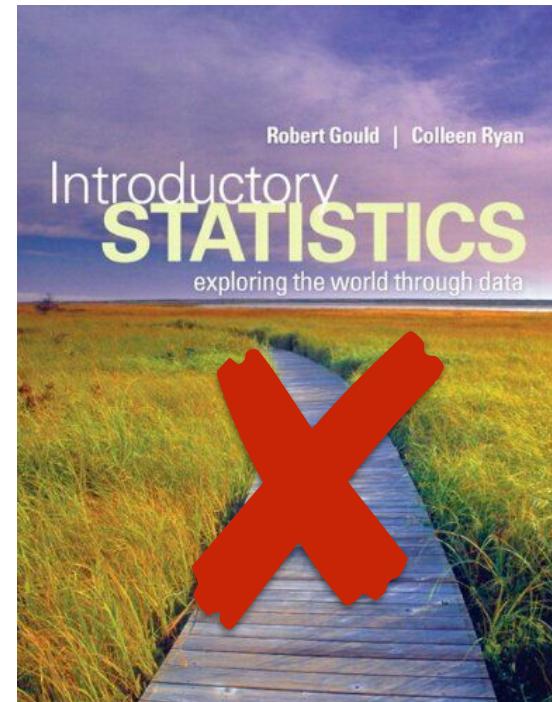

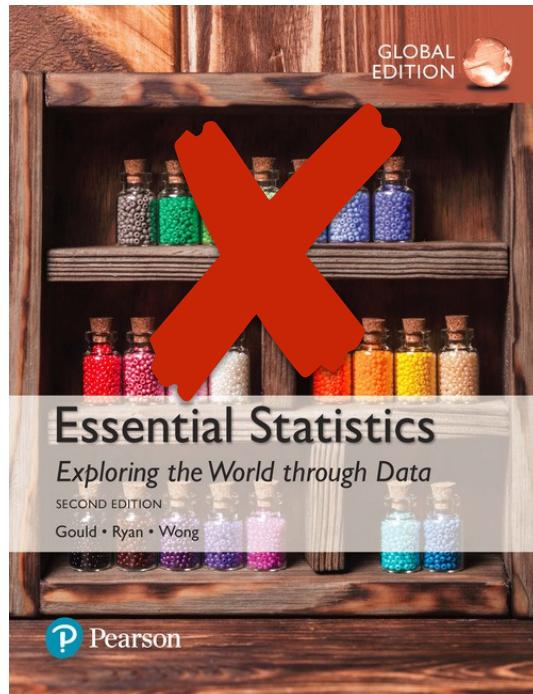

OR

- Custom Edition for UCLA

Wrong Textbook!

- Please DO NOT buy the 1st Edition or the global edition!

Textbook

- Inclusive Access on CCLE course homepage

The screenshot shows the UCLA CCLE course homepage for a Shared System. The top navigation bar includes the UCLA CCLE logo, user information (ZANONTIAN, LINDA and linda@stat.ucla.edu), and a 'Need Help?' link. The left sidebar contains a 'Syllabus' link and a 'Site info' section with links for 'Week 1 (empty)', 'Week 2', 'Week 3 (empty)', 'Week 4 (empty)', 'Week 5 (empty)', 'Week 6 (empty)', 'Week 7 (empty)', 'Week 8 (empty)', 'Week 9 (empty)', and 'Week 10 (empty)'. The main content area displays teaching assistant information:

| Teaching Assistant | Section: Location / Hours | Email |
|--------------------|--|---------------------|
| BAUGH, SAMUEL | 1C: MS 5128 / Monday / 10:00am-10:50am BOELTER 9413 / Wednesday / 10:00am-10:50am 1D: MS 5128 / Monday / 11:00am-11:50am BOELTER 9413 / Wednesday / 11:00am-11:50am | samjbaugh@gmail.com |
| RUIZ, GABRIEL | 1A: MS 5128 / Monday / 8:00am-8:50am BOELTER 9413 / Wednesday / 8:00am-8:50am 1B: MS 5128 / Monday / 9:00am-9:50am BOELTER 9413 / Wednesday / 9:00am-9:50am | ruizg@ucla.edu |

Below the teaching assistant table, there are three buttons: 'Announcements', 'Discussion forum', and 'MyLab & Mastering Tools'. A red arrow points from a red box containing the text 'Click here!' towards the 'MyLab & Mastering Tools' button.

Textbook - Inclusive Access

- Email has been sent to you by support@verbasoftware.com
- Similar to the email below...

Dear Bruin Student,

Welcome to Inclusive Access. Your Professor has taken steps to lower the price of required course materials for their class across the board to all students. You are receiving this email because you are enrolled in a section that includes an Inclusive Access item. This email contains instructions, any applicable access code and URL for accessing your Inclusive Access digital materials.

Each enrolled student is automatically enrolled in the program to start. This program lowers the cost of required course materials up front and provides the resources needed to help you succeed. This program is OPTIONAL; however you must ACTIVELY OPT-OUT if you do not wish to participate, in order to not be billed. No opt-out or refund will be granted after the deadline unless you drop the course (see store with documentation of drop within 7 days for refund).

Using the “Opt-Out” feature from the UCLA Store’s book listing will disconnect your access to the course materials for this course after the opt-out deadline, which may include access to graded homework assignments. If you wish to opt-out, you may do so up until 9pm PST on January 20th, 2017 by submitting your opt-out request from the UCLA Store’s Compare website for your course (or link over from the Registrar’s textbook link to our website). For those continuing in the program beyond the deadline, a bookstore charge will be billed automatically to your Bruin Bill (BAR) account for the materials. Please see your course listing on the UCLA Store’s Compare website for pricing.

Prior to the deadline you can access the materials at no charge, so we encourage you to access them and utilize them fully for class. The materials are not free however, and you will be billed for the materials once the deadline passes unless you opt-out. All information required to access your digital course materials is included below. Questions? Contact us at inclusiveaccess@as UCLA.ucla.edu.

Good luck with your course and we hope you find this program helpful and a cost savings.

UCLA Store- Inclusive Access Team Access Your Course Materials!

You can access your materials by visiting the URLs below and entering your access code (if you haven’t already entered it):

Class Material

- Course Reader: Stat 10 Lab Manual available at the UCLA bookstore
- Calculator
- iClicker

Class Website

- Everything will be posted on CCLE:
<https://ccle.ucla.edu/>
- Lectures, homework, labs, quizzes...
- Please check daily!
- All grades will be finalized on my.ucla.edu

Final Grade Breakdown

- Exam I (25%) - May 2 in class (Thursday Week 5)
- Exam II (25%) - June 6 in class (Thursday Week 10)
- Homework (18%) - lowest score will be dropped
- Online Quizzes (15%) - lowest score will be dropped
- Labs (15%) - 5 total (no scores will be dropped)
- iClicker Participation (2%) - lowest 3 scores will be dropped

Clickers

- Clickers will be used daily, but we will not count them as credit until Tuesday of Week 3
- It is your responsibility to make sure your clicks are being recorded BEFORE Week 3

General Weekly Schedule

- *Monday* Attend discussion section (MS 5128)
- *Tuesday* Attend lecture
- *Wednesday* Attend lab (Boelter 9413)
- *Thursday* Attend lecture

First Lab on Wednesday

- Lab will be in Boelter 9413
- Please arrive on time
- You will be making lab accounts
- You will begin Lab 1

Quiz 1

- is posted on CCLE!
- Due Tuesday April 9 at 10pm
- You will have 1 attempt.
- There is no time limit.

Switching Discussion Section

- This is not recommended but if you *really* need to switch your discussion section, please post a note on our class discussion board on CCLE.
- If you find someone to switch with, both of you will need to go to the Statistics Student Affairs Officers in MS 8117 together and they will make the switch for you.

Class Guidelines

- Late assignments are not accepted for any reason.
- Exams cannot be rescheduled. No makeup exams will be given.
- Write your full name, lecture number, section number and student ID number on every assignment.
- For every graded assignment, you have one week to ask questions regarding grades. After one week, all grades are final.
- No extra credit or extra work.
- No curve.
- Please write your lecture number in your emails to me.

Class Etiquette

- Please don't be late.
- Please don't talk during lectures or when others are asking questions.
- Ask questions.
- Get help as soon as you need it. There are several office hours available to you per week.
- Read the book. Participate in lectures and discussions. Do the homework. Practice.

Class Focus

- The lectures will focus on “big ideas”.
- You can use discussion sections to go into more detail about the concepts discussed in lecture and make sure you can solve problems.
- The labs are meant to help you learn to analyze data.
